

ESTABLISHED 1840.

MEMPHIS, TENN., THURSDAY, OCTOBER 3, 1878.

VOL XXXVII—NUMBER 244

## CLOSING RATES

Yesterday's closing rates: Liverpool cotton, 4 1/2. Memphis cotton, 10 1/4. New Orleans cotton, 10 1/4. New York cotton, 11 1/2. New York gold, 100 3/8.

## WATER INDICATIONS.

At Memphis, Tenn., Oct. 3, 1878. For Tennessee and the Ohio valley, cooler and drier, with some light rain, rising somewhat, and clear or partly cloudy weather.

According to Mr. T. H. Chinn, acting observer, the thermometer at 7 a.m. yesterday registered 71 degrees, with the wind east. At 2 p.m., 78 degrees, with the wind northwest, and at 9 p.m., 66 degrees, with the wind from the north, and clear.

The Howard association reported for yesterday 82 new cases, the largest proportion of them being outside of the city. The Board of Health reports for yesterday 27 deaths in the city, of which number 12 are colored and 15 white. This makes a total of cases to date 6127, and deaths 2735.

Many giving his name as Henry Lowndes, and occupation, book-keeper, it was brought before the recorder this morning at noon o'clock on a charge of rape. We hope, for the sake of humanity, he will be able to prove himself innocent. An offense that usually places those guilty of it without the pale of law, needs the most careful investigation and the coolest and most dispassionate judgment. This is due to the community no less than to the prisoner. Aggravated as this most heinous of crimes is, by our present and condition, Henry Lowndes should have every opportunity to prove his innocence if he is not guilty.

In the death of Mr. John G. Lowndes, which occurred yesterday, Memphis has lost one of her oldest and most reputable citizens. For thirty years he had been engaged in the fire insurance business, and during that time had maintained a high character for capacity and integrity. Mr. Lowndes was a member of the Howard association, and from the beginning of the epidemic had labored with a devotion worthy of a much younger and stronger man in behalf of the sick and destitute. A quiet and modest gentleman, he proved himself possessed of a brave and resolute spirit. This fortified him against the loss of his wife, which he shared the lot of his fellow-citizens during every epidemic that has visited Memphis, and at last has fallen a martyr to duty. Mr. Lowndes was a prominent member of several societies, and he always been a leading and a consistent member of the Episcopal church.

NO BETTER evidence has fallen under our notice of the generous and sympathetic spirit that has actuated our northern brethren toward us during this epidemic than that supplied by the following note, which we find in the *Register* of yesterday:

CONNECTIONS: Mutual Life Insurance Co., W. B. Boyd, Secy. New York, September 20, 1878. Dear Sir:—The action of physicians in visiting the city of Memphis, and the action of the Howard association, which has been taken in the name of the afflicted people of that city. This is a great favor to the city of Memphis, and we are very grateful to you for it. We are, Sir, very respectfully, Yours, JOHN M. TAYLOR, Secretary.

To those who have guarded life insurance companies have to be to protect themselves by limiting the field of operations of the insured to certain parts of our own and other countries, the above is eloquent of disposition by a great corporation to farther, and not hinder, the beneficent work of doctoring and nursing our sick, work which is in many honest and honored representatives of our sister States. This proves that "corporations have no soul" is not true of the Connecticut Mutual Life, which this company is to the people of the Union, those of the south especially.

It was a great pleasure to my friends to meet Colonel Henry Wallace, editor of the *Ledger*, upon the streets yesterday, very weak, it is true, but still so far convalesced as to give assurance of his recovery from a severe attack of fever. Captain Maties, during his illness, was as unfortunate in the character of the nurses sent to care for him that many feared that the worry and excitement they occasioned him would induce death from nervous prostration. After many trials of this kind, however, he secured two good and faithful nurses, by whose help and the help of a native resolution that nothing can daunt, he has so far got the better of the plague as to be able to go out for a brief visit to his office, where he received the congratulations of his surviving friends. His wife, to whose unflinching care and indefatigable will to save his life, he is glad to know, for the second time getting better. The last attack was so severe as for while to occasion despair on the part of her attendants, but she is happily beyond the danger and will in a few days be able to get up. How much she endured of annoyance from the thieves, drunken scoundrels who at first made their way to her husband's bedside it would take columns to tell. Her experience in this connection, coupled with the recovery of herself and her husband, forms one of the striking incidents of the deadly visitation that has cost us the lives of so many brave men and beautiful women, and, if told at length, would illustrate in some degree what our people have had to endure from an inundation of drunken vagabonds and thieving outcasts, who forced themselves upon us when our police force was unequal to the task which ordinarily devolves upon it of saving us from the depredations of such pests. Most of these characters have gone, but there are a few yet left, whom we trust will have the attention of the police. They are operating under the guise of an active philanthropist, and a thin veneer of respectability, which any practical eye can penetrate without trouble. But, coming back to our friend, we congratulate him upon his narrow escape from death, and upon the hopeful progress Mrs. Maties has made toward a safe convalescence.

The medical commission authorized by the government to investigate and report upon the origin and progress of the yellow fever, is charged with a duty and responsibilities more weighty than have ever been assigned to any body yet commissioned by it. It consists of Dr. S. M. Bowditch, of New Orleans; Dr. Jerome Cochrane, of Mobile, and Dr. E. Lloyd Howard, of Baltimore. Dr. Bowditch was born in Kentucky, in 1821, and graduated at the University of New York in 1846. He is at present professor of the theory and

## THE FEVER ABROAD.

Latest from the National Cemetery, Capleville, Water Valley, Holy Springs, Brownsville and Other Points Contiguous to Memphis.

The Fever Showing No Signs of Abatement—New Cases Every Day and a Heavy Proportionate Mortality—New Orleans and Other Points in Louisiana.

Still Suffering from the Exhausting Plague—The Death-Roll of Grenada, Miss., a Sad Array of Names—No is that of Hickman, Ky.

## Water Valley, Miss.

Special to the Appeal: WATER VALLEY, October 2.—No deaths today, but five new cases—two colored and three whites. L. M. Pennington, train dispatcher, who has stood to his post nobly, had to succumb to the terrible plague at last. The engines and shops are draped in black, and the people are in mourning for the noble L. M. Becton, master mechanic. His place as a mechanic and citizen will be hard to fill, as he was loved by all who knew him. H. W. FREEMAN.

## Brownsville, Tenn.

BROWNVILLE, October 2.—The outlook is not so bad today, but we are afraid to hope. There were no deaths in the last twenty-four hours. The new cases were Mrs. Brown, who had been in the city for some time, and Mr. Brown, who had been in the city for some time. John W. Martin and seven colored cases. Mrs. Brown has relapsed, and is very ill. Rev. Dr. Brown is quite feeble, but has not failed the fever. T. G. Bryan is dying. We need ice and ale or porter.

## W. B. LEIGH.

W. B. LEIGH, Secy. S. M. PROVINCE, Committee.

## Special to the Appeal.

BROWNVILLE, October 2.—I am authorized to say that the statement in yesterday morning's *Appeal*, that a physician had been telegraphed for for Captain Bond is incorrect. Captain Bond had every attention that skill could devise or kindness or love suggest.

## Baton Rouge, La.

BATON ROUGE, October 2.—Eighty-two cases and five deaths. The fever is increasing at Plaquemine and Fort Hickey.

## Canton, Miss.

CANTON, October 2.—The fever here has taken a fresh impetus; not only in a greater number of cases, but in a more malignant

## Carrollton, La.

CARROLLTON, October 2.—Total cases, two hundred and twenty, and one hundred and ten. There were five deaths yesterday. Most of the sick are in destitute circumstances.

## Dry Grove, La.

DRY GROVE, October 2.—Seven new cases and two deaths at Dry Grove since last report. Dr. Deacon and G. S. Dickson are seen with the fever. The other cases under treatment are doing pretty well.

## Grenada, La.

GRENADE, October 2.—Total cases, two hundred and thirty, and one hundred and ten. The Howard committee are feeding forty destitute families, representing two hundred persons. The fever is spreading rapidly.

## Holy Springs, Miss.

HOLY SPRINGS, October 2.—The secretary of the board of health was taken sick yesterday, consequently there is no official report, but the physicians report 15 new cases and 10 deaths. Every store is closed. All who have had the courage to remain are cared for by the relief committee.

## Greenville, Miss.

GREENVILLE, October 2.—Dr. Aicher and Dunn were taken down with the fever this morning. The former is a volunteer physician from Point Coupee parish, Louisiana. No abatement in the fever, there have been twenty new cases and six deaths in the past twenty-four hours.

## Chattanooga, Tenn.

CHATTANOOGA, October 2.—The official report for the twenty-four hours ending at four o'clock this afternoon gives the deaths from fever of S. Goldstein, Ross Burkhardt and Jim Kinney, and three new cases. The warm weather yesterday developed more fever than usual, but Dr. Sims, medical director, in reply to continued offers of medical aid from abroad, says that he has sufficient force for all probable emergencies—enough of the most reliable and experienced medical men and women to be acceptable. The weather is warm and cloudy.

## Capleville, Tenn.

From an Appeal Correspondent: CAPLEVILLE, October 1.—A few days since Dr. Brown died of yellow fever four and one-half miles from here. He was a grocery keeper at Central Point, and contracted the disease in going to and from his place. I am sorry to say that he died at his place, Dr. W. S. Malone, could induce no one to go to the assistance of the deceased, though the warm weather yesterday developed more fever than usual, but Dr. Sims, medical director, in reply to continued offers of medical aid from abroad, says that he has sufficient force for all probable emergencies—enough of the most reliable and experienced medical men and women to be acceptable. The weather is warm and cloudy.

## New Orleans, La.

NEW ORLEANS, October 2.—Dr. Burwell, also of Georgia, one of the first physicians who volunteered for Memphis, died today at the Charity hospital. The reports at the office of the board of health indicate a slight increase in mortality, and this continued increase is followed by a spread of the fever among children. This appears to be especially true in the third district, but parents pronounce the disease extremely mild in type. The report of the Pickwick club shows that four thousand and twenty prescriptions, equal to eleven thousand bottles of food and soup, have been given away for the benefit of the sick.

## From an Appeal Correspondent.

From an Appeal Correspondent: NEW ORLEANS, September 27.—This is hardly the time to be telling your columns with personal matters and statistical minutiae. As I think Georgetown has been well enough to tell you, I will state we have sixteen or seventeen cases now, the most of them taken yesterday and the day before. Two are claimed convalescent, while the majority are getting along as well as could be expected; they are still very sick. One of our physicians, Dr. P. H. May, was taken a day or two ago, and he has also four children down with the fever, making a total of five sick and one nurse. Dr. May's family five are sick and only one nurse. In Mr. Hart's family five are sick and one nurse. There were two funerals yesterday for "Christian burials," Mrs. B. F. Hart and little Nellie, daughter of our fellow citizen E. W. Gorman. She was the light and life of the household, and was almost idolized by her father, who is just up himself, he having had a tight tussle with Yellow Jack.

## National Cemetery, Shelby County.

From an Appeal Correspondent: NATIONAL CEMETERY, October 1.—Since my last communication I have to report the following deaths here: Thos. McChannan and Mr. Higgins, both of the Louisville railroad, and Robert Shelton, of C. L. Byrd & Co., who passed away to the great unknown world in one family since Monday. Two new cases at St. Vincent and two at the National Cemetery. One of the new cases of the Rampart street synagogue, was taken down with the fever on Tuesday.

## National Cemetery, Shelby County.
